Edited by [Rob Haelterman](#)

Minairons Miniatures' range has a close relationship with the military history of the nations of the Iberian Peninsula, with a special accent on Catalonia, where the brand is born. In this manner, the first kits in the range will be a selection of Spanish Civil War fighting vehicles, mainly those with a wider use in other inter-war conflicts, or even early WWII. These are to be released in 1/72 and 1/100 scale first - leaving an eventual 28mm range for a little later, depending on demand and budget.

This kit is a fast assembly Panzer I Ausf. A with two optional turrets: the standard one and the one with the 20mm Breda gun "modificado" turret.

Preview:

- The box contains 3 fast assembly plastic models.
- There are 2 optional turrets for each tank.
- The decal sheet is sufficient for up to 4 German, Kuomintang Chinese and Spanish Nationalist tanks.
- Each sprue has up to 10 parts for one single model --including both alternative turrets.
- The kit comes in a cardboard 22 x 15 x 3 cm box. On the backside of the box is a painting diagram and instructions to build the model.
- The model is very simplified and will need upgrading for collectors, but is acceptable for wargamers.
- All hatches are closed; the tools on the fenders are moulded on and very poor. They need to be replaced with better ones.
- The steel beam behind the wheels needs reworking.
- The tracks have in- and outside details but these are not correct.
- The 20mm gun is much too heavy and too thick and needs to be replaced.

- The size of the model is is:
 Length: 56mm
 Width: 29mm

Conclusion:

It will be a kit for the wargamer, but after some upgrading also for the modeller.
